

OTAR Srl

Industrial components since 1974

COMPANY

Otar Srl provides special bearings for the widest applications for more than 40 years. Established in 1974 for the distribution of an innovative bearing constructive concept for the time, produced in acetalic resin from moulds, it has evolved over the years, with new technology solutions, from bearing in plastic coated steel, axial bearings to super precision bearings for aerospace and to thin section bearing, with geared housings, for the defence sector.

Supplying customer from the widest range of sectors, we are focused in:

- Providing the highest quality and reliable products
- Providing the best Customer Service
- Providing cost-effective solutions for each applications

CERTIFICATIONS

Our Quality System is guaranteed and certified by:

- ISO 9001:2015
- EN 9120:2018

PRODUCTS

Semi-precision bearings:

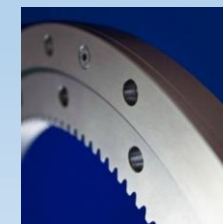

- Moulded bearings in acetal resin

Precision bearings:

- Machined bearings in acetal resin
- Steel bearings
- Coated steel bearings
- Axial bearings

Super-precision bearings:

- Thin section bearings
- Ceramic and hybrid bearings
- Bearings for high and low temperatures
- Slewing rings (up to 14 meters of out diameter)
- Cam Followers
- Aerospace bearings (up to ABEC 7 precision and with Space Heritage)

CHARACTERISTICS

Our range of products is supported by a full service, from the project design, through prototypes to the final supply. Our partners are constantly audited by our senior management in order to guarantee:

- High quality control
- Design flexibility
- Traceability
- Technical support

SECTORS(semi-precision and precision bearings):

- AUTOMATIC SLIDING DOORS
- SUPER AUTOMATIC COFEE MACHINES
- SLIDING DOORS
- DRAWERS TELESCOPIC SLIDES
- SLIDING FRAMES
- PACKAGING MACHINES
- LIFTS
- SUN CURTAINS
- TRAINS SLIDING DOORS

SECTORS(super-precision bearings)

- DEFENSE
- AEROSPACE
- EOLIC
- SOLAR POWER
- SATELLITE ANTENNAS
- RADAR
- ELECTRICAL ENGINES
- OIL & GAS
- MOTOR SPORT

Oil and Gas

Robotics

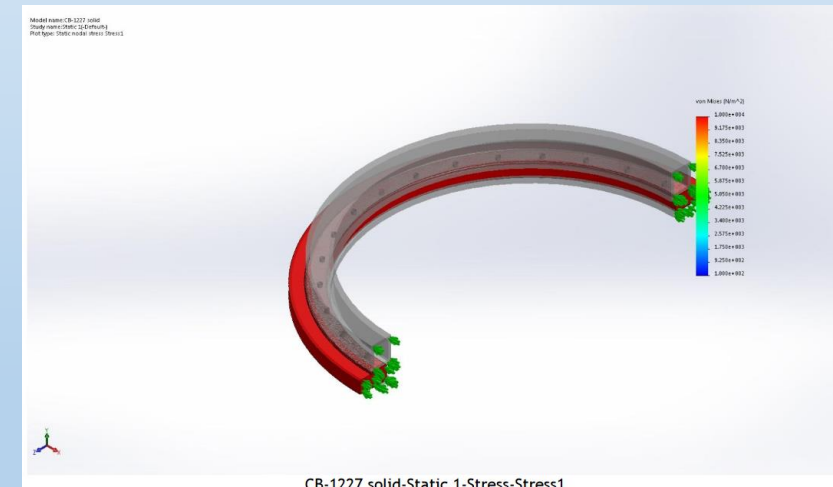

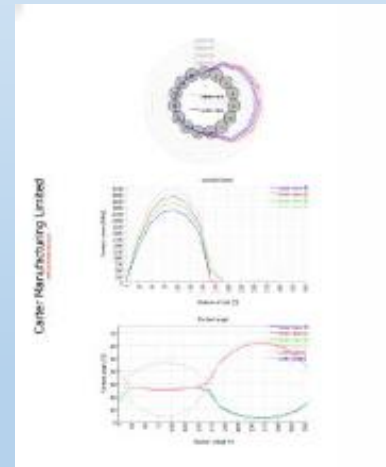

Optical

Otar Srl is your ideal Engineering Partner

Otar Srl has developed a lot of design experience for every applications over the years. Our main aim is to offer adequate solutions for each challenge that our clients face, providing:

- Detailed constructive drawings
- Theoretical support calculations
- FEM and FEA analysis
- Life test with full reports

CLIENTS

These are some of the companies who trusted our products and service:

OTAR SRL

WHATEVER IS YOUR APPLICATION, QUALITY STANDARD REQUIREMENT, SUPPORT REQUEST, DON'T HESITATE TO CONTACT US AND VISIT OUR WEBSITE.
